

ELIMINATE INTERRUPTIONS WHEN ON A CALL

STAY IN TOUCH AROUND THE OFFICE

Daily distractions and unwanted interruptions in the open office environment result in lost efficiency and poor work quality.

The Jabra Busylight is a polite, effective way to let people know you are on the phone. A long cord allows you to place the light where it easily can be seen. The indicator turns red when you are on a call and switches off when you end your call.

GN Netcom is a world leader in innovative headset solutions. GN Netcom develops, manufactures and markets its products under the Jabra brand name.
